INTERNSHIP   EXPERIENCE

CYBERAX LLC,sousse :Graduation internship (03/2023 - 10/2023)
- Siteweb smart e-commerce with delivery method: Development of an e- commerce website for drivers, customers ,sellers and admins. The solution includes a local part allowing to order items in the localization area, as well a regional part covering several regions.
- Features: Design and implementation of various features for customers and sellers, such as profile management, product visualization, the ordering, tracking deliveries. In addition, the application offers to users the opportunity to register as potential deliverers, thus creating a flexible work opportunity.
Additionally, I also had the opportunity to delve into creating an article recommendation system, which provides users with tailored suggestions based on their purchasing preferences. This feature was developed using Machine Learning techniques.
